"On Agin; 'Back' Agin"

After a brief suspension, the Times is on its feet again. The suspension, it seems, was unavoidable owing to improper understanding of current conditions.

The publisher had built a new home for the paper and wanted to put it into it, and buy it. The owners did not want to sell, but they finally did. We had much rather they could have arranged for some one else to publish it, but their failure to make such arrangements, lets us "back agin" and we shall do our best to give the people of Powell a good paper.

So send in your renewals and items of news as formerly and we will be pleased to take care of them.

Dave Rose Suicides

Dave Rose, aged 33 years, rose early Friday morning of last week at his home two miles east of this city, took a shot gun and went to the kitchen where he blew his brains out in the presence of his wife who, anticipating some rash act, had followed him there and endeavored to take the gun from him.

For some time Mr. Rose has been of depressed mind. First developing while in the draft at Camp Taylor two years ago. He later seemed to have great fears of starvation.

Burial in the Clay City cemetery Saturday.

He is survived by wife and baby, father, R. P. Rose, of Clark county and sister, Mrs. Coleman Portwood, of this city.

Work on Road Progressing

Work on the Clark county road is progressing very satisfactory under the inspection of Mr. Phelps. It is expected that the road will be completed this fall. The State and Federal Government will then finish the road through the county with no expense to the county except for the right-of-way.

The wet weather and mud in our roads very strikingly reminds us that we still need roads in our county.

A Little Worse Again

The trains have changed time again. The morning train going down arrives here now at 6:15 instead of 7 o'clock, as formerly. The train coming up at night arrives about thirty minutes later. Trim your lanterns and get a new supply of flash lights, for a little later when the days grow shorter and the roads become much worse, we can't leave town in autos, and must use the trains which will then leave before day and return long after night.

Teachers' Institute

The Powell County Teachers' Institute will be held at Stanton, beginning September 6th, with Prof. Chas. A. Keith, of Richmond, Ky., as instructor. Dudley Caudell, Supt.

Dr. Nickell at Home

Dr. James T. Nickell, our dentist, is at his office in Clay City ready for two weeks' practice, or longer if business demands it.

Trouble in Getting Right-of-Way

The county is having considerable trouble in getting the right-of-way for the new road through the lands of H. C. Borders and Charlie Fletcher, (colored.)

A trial of the Fletcher case resulted in the jury giving him \$150.00 for 9-10 acre of ground to be used in road building.

Borders allowed the county to take judgment and then appealed. The commissioners appointed to assess the damages allowed each \$100.00. The right-of-way takes only one tenth of acre from Borders' garden and yard. These are the only two that could not be satisfied out of condemnation proceedings and each of them had previously signed papers giving the right-of-way. They took advantage of very slight changes and demanded pay.

If the county had to pay all the right-of-way through the county at the same rate as was awarded the black man, it would cost \$18,000.00 for right-of-way only.

Killing at Irvine

In a melee over the arrest of a bootlegger at Irvine, Marshal Philpot was shot and killed by Deputy Sheriff Reed. At the same time Reed was shot and later died at the Richmond hospital. Joe Spivey, another officer, was mixed up in it and got shot. Estes, the bootlegger, was also shot and may die. Spivey was arrested and spirited away to avoid further trouble.

Deputy Sheriff Reed is a brother to Mrs. Dave Patrick of Hardwick's Creek.

The Coldest August

The coldest August day yet on record up to Tuesday, the 23rd, was in 1909 when the thermometer dropped to 58 degrees. Tuesday it went four degrees lower, breaking the former record. So much cool weather as we have had, is calculated to injure corn crops which are now in the early roasting ear stage. It takes hot nights to make the proper growth of corn as well as plenty of moisture.

Improving The Streets

Our City Board will receive the thanks of a weary public for the improvements they are putting on our streets. The gravel they are hauling will serve to keep us out of mud this winter and to level up the holes that are already in our main thoroughfare. The job should be done completely if the citizens find it necessary to supplement the city funds.

Population of Powell Announced

The Bureau of Census, Washington, D. C. has announced the population of Powell county, the towns of Clay City and Stanton as follows:

	1920	1910	1900
Powell County	6,745	6,268	6,443
Clay City . . .	602	581	585
Stanton	311	278	192

The increase will be seen to be very small, but it is a little, while some other counties have gone back. The increase in the whole state is less than one hundred thousand.

Date Fixed for Fair

The date for the Powell County Agriculture and School Fair has been fixed for the 24 and 25 of September. The premium list has been increased greatly and the time of holding the fair changed from one to two days.

The catalogs will be ready for distribution within the next few days. They will comprise sixteen pages of very readable matter.

Every citizen of Powell county should patronize the fair. It helps to stimulate interest in our schools, and to advance our agricultural resources. If you cannot go, send an exhibit of some kind a show a willing hand.

Too much cannot be said in commendation for Mr. H. H. Harrison, County Agent, and Prof. Dudley Caudell, Superintendent of Schools, for the promotion and success of this fair. Powell needs more young men of their calibre.

To Pinch the Speeders

The town authorities have taken steps to enforce the speed law in Clay City against automobilists. The limit is fifteen miles per hour, and no greater. This has been brought about on account of very reckless driving by some of the younger boys.

It is often necessary to speed up a little to keep the pestiferous urchins from jumping on a fender or swinging on behind which, if indulged in, is liable to get some one in on a charge for murder when they will not be to blame.

If parents cannot always know where their children are, they should be sure they are not swinging on the rear of some automobile or on a fender of a fast moving machine.

Good Well Struck at Stanton

I. N. Phipps Saturday drilled into the sand on J. D. Atkinson's farm at Stanton and struck oil of fine quality in paying quantities at a depth of less than three hundred feet.

The strike is very encouraging to those persons, among them being Mr. Phipps, who all along have contended that there is oil in this part of Powell. The Times thus wishes to carry the good news to all persons who have the best wishes of the old county at heart.

Bank Report

In this issue we publish the July statement of the Clay City National Bank which, of course, has been delayed on account of the silence of the Times. This statement is the largest and best one ever published by us. The business amounts to more than one-half million dollars. This naturally seems incredulous, but it is true, never the less.

Moves Saw Mill

Mr. Armittage, who for some time has been operating a saw mill on Hardwick's Creek, loaded his mill here last week, the same to be shipped to Flemingsburg where he will saw some timber.

"Aunt Cynthia Burton Passes Away

"Aunt" Cynthia Burton passed away last Tuesday morning after a lingering illness of several weeks. Burial at Kennon graveyard Friday at 10 o'clock, where funeral services were conducted by Rev. L. T. Allison, of Clay City. Deceased was 87 years of age; was born and reared on Hardwick's Creek and had spent most of her life in the same community.

Mrs. Burton before marriage was a Miss Swope and only leaves one surviving member of the family, John, to whom we extend our deepest sympathy in his sad hour.

"Aunt" Cynthia had been a member of the Christian Church for sixty years and was considered a very lovable Christ-like lady by all who came in contact with her. We all regret and feel the loss by the passing of such a one. Vaughn's Mill Correspondent.

Tearing Down Lumber Shed

Swan-Day Lumber Company is tearing down the rough lumber shed at the old planing mill in this city. It is a very large shed, but, under the management of Mr. John P. Ringo, it is most all down. The lumber is being graded, assorted and sold by Mr. Ringo. Several car loads have already been loaded out.

Now that we are on our feet again, correspondents will resume their weekly news items. This temporary suspension has annoyed us fully as much as it has our readers, many of whom have told us of how badly they missed the weekly visits of the Times. The same reason for suspension will not occur again, so we think our readers may feel assured that the paper will appear regularly each week, unless sickness or other unforeseen reasons take place. So send in the news and your renewals.

In view of the great interest in the Presidential campaign just opening, The Courier-Journal now makes a special offer covering subscriptions from Kentucky, Tennessee and Indiana of 100 days for \$1.80.

A subscription for 100 days means that you will get the paper all during the campaign and until long after the votes are all counted in November.

No paper in this section of the country will cover the forthcoming political campaign so fully as The Courier-Journal; in fact, there are only a few that are in a position to cover it so completely, because The Courier-Journal not only has the Associated Press dispatches, but in association with the New York Times, it carries the greatest special news service in the world. In addition, The Courier-Journal maintains its own bureau of staff correspondents at Washington. For news of activities at the State Capital it has its exclusive bureau at Frankfort. THE "OLD RELIABLE"

THEDFORD'S BLACK-DRAUGHT

White Haired Alabama Lady Says She Has Seen Medicines Come and Go But The "Old Reliable" Thedford's Black-Draught Came and Stayed.

Dutton, Ala.—In recommending Thedford's Black-Draught to her friends and neighbors here, Mrs. T. F. Parks, a well-known Jackson County lady, said: "I am getting up in years; my head is pretty white. I have seen medicines and remedies come and go but the old reliable came and stayed. I am talking of Black-Draught, a liver medicine we have used for years—one that can be depended upon and one that will do the work."

"Black-Draught will relieve indigestion and constipation if taken right, and I know for I tried it. It is the best thing I have ever found for the full, uncomfortable

feeling after meals. Sour stomach and sick headache can be relieved by taking Black-Draught. It aids digestion, also assists the liver in throwing off impurities. I am glad to recommend Black-Draught, and do, to my friends and neighbors."

Thedford's Black-Draught is a standard household remedy with a record of over seventy years of successful use. Every one occasionally needs something to help cleanse the system of impurities. Try Black-Draught. Insist upon Thedford's, the genuine.

At all druggists.

A Wet August

Probably one of the wettest periods of August ever recorded was this year, when it rained some for twelve days without

missing, following the 3rd of the month. Remarkable as it may seem with such extremely heavy rainfall, the river was never past fording during the rainy period.

Why Put it Off?

Delay in securing something you know you need, is as costly as having something stolen from your home.

You know that some day, you are going to furnish your home and place with electrical equipment.

And if you can be satisfied, that the best is now obtainable, why put it off?

Ten Years Record

That's what we want to do—satisfy you.

And if we can't satisfy you, you don't have to buy, in fact we know you have better sense than to buy unless satisfied.

Ten years successful experience in the homes of owners everywhere, is a record that is worthy your careful consideration.

That's what is back of the New Lalley Light.

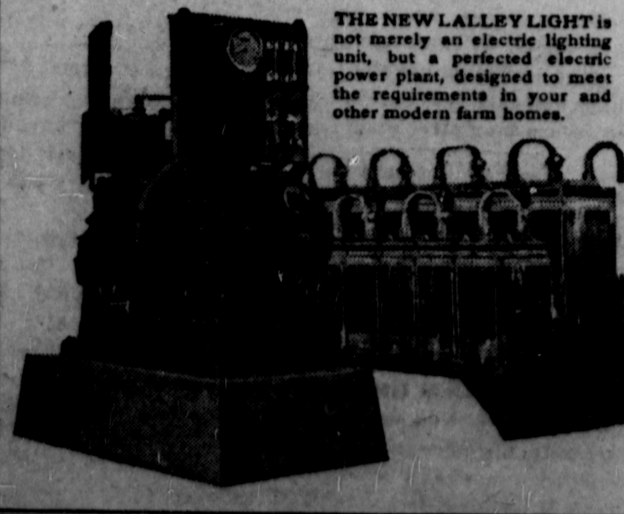

You can have bright, brilliant, ample, safe, clean electric light in every room, in the yard, barn, out-buildings; and you can do the washing, ironing, churning, separating, watering stock, the bathing, dish-washing all quicker, easier and cheaper with the New Lalley Light.

But—all we ask is that you investigate the New Lalley Light for yourself.

Your natural prudence—your own good common sense will tell you that you must see the New Lalley Light before you buy.

We welcome you to visit our showroom. Write us for literature on the New Lalley Light.

L. Stamper, Stanton, Ky.

THE NEW LALLEY LIGHT is not merely an electric lighting unit, but a perfected electric power plant, designed to meet the requirements in your and other modern farm homes.

Messrs. Lindsey Bush and Frank Wright were at Kimbrell Saturday evening. We could relate their mission, but will defer this time.

The following people attended the closing services of the Saints' meeting at Winchester Sunday: Mr. and Mrs. G. W. Bush and son, Clyde; A. P. Bush and daughter, Miss Nettie and Sam Wells.

S. V. Larison, Clay City, preached Sunday to a packed house at Vaughn's Mill school house. Bro. Larison will hold a week's meeting there the last week in this month.

Born to the wife of Iz Larison, last week, a fine boy.

It's still raining here, but never-the-less doing much good.

Messrs. Bert Charles and Frank Goodman have joined the Ford advocates.

Miss Minnie McPherson is on an extended visit with relatives at Fixer, Ky.

Chas. Welch sold to Claude Sams for fall delivery 10 bbl. picked corn at \$6.

Mrs. Nannie Bush and children spent the week-end with Mr. and Mrs. Jeff Wright, in Fayette county.

Several from here this week are attending the annual State Saints' meeting which is now in session at Winchester.

Chas. Welch was in Lexington Saturday entertaining a calf to the Blue Grass Fair and attending to other business.

Mrs. Annie Burton Curry, of Lexington, is spending several days at the home of Mr. and Mrs. John Burton, to be with the former's mother, "Aunt" Cynthia, who is not expected to live long.

Misses Katherine and Edna Mize and little brother, Earl, spent the latter part of last week with G. W. Bush and family, and attended the cream social. They returned to their home at Kimbrell Sunday.

Mr. and Mrs. Claude Sams went to Greendale Reformatory Friday to see the latter's son, Alden Larison. Recent reports coming from there say he is making an ideal prisoner and the presumption is that he will soon be paroled for another chance.

Miss Sylvia Faulkner, from near Stanton, is in charge of our free school and is having good attendance thus far, the house being packed to its full seating capacity. She taught here last year, and the people were very fortunate in getting her back this year.

Fourteen teamsters, mostly of this vicinity, who were hauling lumber from Upper Hardwick's Creek to Clay City, are now out on a strike. They were receiving 80 cents a hundred, whereas they asked for \$1.00 and were turned down by the mill men, so, consequently, they walked out.

There Is a Delco-Light Man Near You

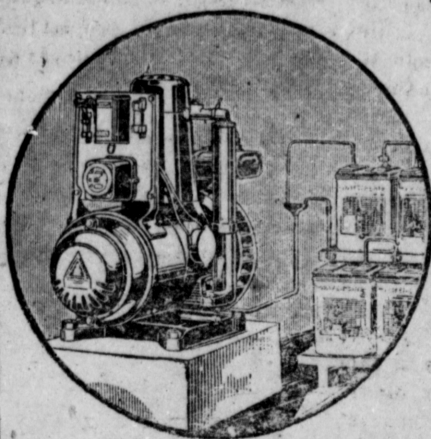

No matter where you live, there is a Delco-Light man within easy reach of you.

This means much more to you than mere convenience in the purchase of a Delco-Light plant.

These men are trained men—they KNOW electricity as applied to farm use.

They can advise you as to the size of plant you should have.

Delco-Light is a complete electric light and power plant for farms and country homes, self-cranking — air-cooled — ball bearings — no belts — only one place to oil — Thick Plates, long-lived Storage Battery — RUNS ON KEROSENE.

Delco-Light is lightening labor, bettering living conditions and actually paying for itself in time and labor saved in more than 75,000 farm homes.

Rev. H. F. Hall will preach for us on the second Sunday, Sept. 12th, at 3 p. m. at the Christian Church. One and all are urged to come out on the above date and give Bro. Hall a warm welcome and a good hearing. Let's not allow our country churches and Sunday Schools to go down, if we can do anything to hold them up. Folks, it will never do.

The ice cream social given by our progressive school teacher and others, to buy some equipment for the school room, was not, we are sorry to say, attended and supported as it should have been. The promoters came out some two or three dollars in debt. This social was given for a good cause and we are sure the net proceeds, if there had been any, would have been wisely spent. Let us, as good citizens and patrons, never let this occur again.

Attention!

After the strain of summer work and cares, you, no doubt, need a good tonic to regain lost vitality. We constantly keep on hand a complete line of proprietary remedies, including the famous "Japanese Oil", manufactured by National Remedy Co., New York City. Your patronage will be appreciated.

As a member of the State Board of Accountancy of Kentucky, Governor Morrow has named J. W. R. Bradford, of Florence.

Bradford, who has offices in Cincinnati, is well known in Northern Kentucky and has been appointed because of his long experience in matters of accountancy.

Montville Jackson, of Middletown, Ohio, was here last week visiting his niece, Mrs. Mary Belle Pettit.

With Difficulty

It is with great difficulty this issue of the Times was gotten out. The editor already had the work of two men on his hands, (that is for these kind who work only eight hours out of twenty-four), and to shoulder the third man's job was a little sudden. But we will soon accustom ourselves to the situation and get the paper out as formerly, we judge.

To begin with, we got our type set for last week's issue and had our paper shipped in due time, but the railroads failed to deliver it in time for printing. Our readers will observe a great deal of last week's news. This statement will account for this.
